

# IPv6 Case Studies - A Call to Action

John Curran, President & CEO

# Current Initiatives to Encourage IPv6 Deployment

- IPv6 deployment case studies
  - community members sharing experiences
  - <https://teamarin.net/get6/ipv6-case-studies/>

- Getting IPv6 addresses from ARIN
- Creating an IPv6 address plan
- The business case for IPv6
- The technical how-tos in setting up IPv6

# Published IPv6 Case Studies:

- San Joaquin Valley Library System
- NTT
- Microsoft
- Patton
- Merit Network
- Commercial Network Services
- GlowHost
- American Data Technology
- U.S. EPA
- Clearcable
- Watch Communications
- Communicate Freely
- Burlington Telecom
- Vodafone NZ
- C&W Communications

# More Published IPv6 Case Studies:

- **University at Buffalo – SUNY**
- **University of Pennsylvania**
- **Virginia Tech**
- **The University of Iowa**
- **University of CO, Denver**
- **Washington & Jefferson College**
- **Carleton University**
- **Monmouth University**
- **Louisiana State University**

## Has your organization made progress with IPv6?

- You can help other organizations that are just getting started
- Drop by the **ARIN Help Desk** this week
- We want to develop an IPv6 case study with you

## **Let us highlight your accomplishments and encourage others to deploy IPv6! Just answer a few questions like:**

- What drove your decision to adopt IPv6?
- Did you encounter obstacles? How did you overcome them?
- Have you and/or your customers gained any benefits from being IPv6-enabled
- If you could share one piece of advice to help others who are deploying IPv6, what would it be?

**Questions?**
